

# HANDS ON

## Lesson 1.6

Name \_\_\_\_\_

### Algebra • Add in Any Order

**Essential Question** Why can you add addends in any order?

Operations and Algebraic Thinking—1.OA.3

**MATHEMATICAL PRACTICES**  
MP.7, MP.8

### Listen and Draw

Use   to model the addition sentence.  
Draw to show your work.

**FOR THE TEACHER** • Direct children to do the following. Use connecting cubes to show  $2 + 3$  and then  $3 + 2$ .

### Math Talk

#### Mathematical Practices

How is  $2 + 3 = 5$  the same as  $3 + 2 = 5$ ? **Explain** how it is different.

## Model and Draw

The **order** of the **addends** changes.  
What do you notice about the sum?

$$1 + 3 = 4$$

addends

sum

$$3 + 1 = 4$$

## Share and Show

Use   to add.  
Color to match.

 Write the sum.

1.

$$2 + 3 = \underline{\quad}$$

Change the order of the  
addends. Color to match.  
Write the addition sentence.

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad}$$

2.

$$2 + 4 = \underline{\quad}$$

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad}$$

3.

$$4 + 1 = \underline{\quad}$$

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad}$$

Name \_\_\_\_\_

**On Your Own****Look for Structure** Use . Write the sum.

Circle the addition sentences in each row that have the same addends in a different order.

4.

$$1 + 2 = \underline{\quad} \quad 1 + 3 = \underline{\quad} \quad 2 + 1 = \underline{\quad}$$

---

5.

$$1 + 5 = \underline{\quad} \quad 4 + 2 = \underline{\quad} \quad 2 + 4 = \underline{\quad}$$

---

6. **THINK SMARTER** Choose addends to complete the addition sentence. Change the order. Write the numbers.

$$\underline{\quad} + \underline{\quad} = 10$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

---

7. **GO DEEPER** Write two addition sentences that tell about the picture.

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad}$$

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad}$$

**Problem Solving • Applications**

**WRITE** Math

Draw pictures to match the addition sentences.

Write the sum.

8.  $2 + 6 = \underline{\quad}$

$6 + 2 = \underline{\quad}$

9.  $1 + 5 = \underline{\quad}$

$5 + 1 = \underline{\quad}$

 10. **THINK SMARTER** Draw lines to match the same addends in a different order.

$7 + 3 = 10$

$3 + 6 = 9$

$4 + 6 = 10$

$6 + 4 = 10$

$3 + 7 = 10$

$6 + 3 = 9$

**TAKE HOME ACTIVITY** • Ask your child to use small objects of the same kind to show  $2 + 4$  and  $4 + 2$  and then explain to you why the sums are the same. Repeat with other addition sentences.
